### CMAI Completes 2009 Americas Petrochemical Company Handbook

Houston, TX – [Chemical Market Associates, Inc. \(CMAI\)](#) announces the completion of its fourth petrochemical company handbook for 2009, [The Americas Petrochemical Company Handbook](#). The **Americas Handbook** complements CMAI's **Europe/CIS/Africa**, **Middle East/India** and **Asia Handbooks**, published earlier this year, in providing information on chemical assets located in North and South America. Presented in full-color format, flowcharts for each company and geographic location show the product flows as well as the location of each production facility. In addition, production and consumption data included in the flowcharts indicate the degree of product integration of both companies and locations. Maps illustrate the geographic concentration of chemical facilities for various countries and states/regions. Capacity tables, grouped by product, list the nameplate capacity for the reference year 2009. Company ownership and consumption factors for base chemicals complete the comprehensive overview of the chemical industry in North and South America.

Each Handbook contains the latest company information including:

- Company & Location Flow Charts with Product Integration Data (Production/Consumption)
- Location Maps
- Full Listing of All Regional Producers, Locations and Nameplate Capacities
- Company Ownership
